

## **Deployment Application Specialist Vacancy 16.04.21**

Your role will involve providing application consultancy to customers during the implementation of Soliton IT's Radiology Information System (RIS) and associated applications. This work is carried out both onsite with the customer, and offsite at the office (likely to be home-based).

Core tasks include system installation and configuration, as well as working alongside internal parties (e.g., Project Manager, Product and Development teams, Support and any other relevant staff) to deliver the specified system.

As an Application Specialist your responsibilities will include:

- Install and configure Soliton IT Software
- Install, Manage and Troubleshoot SQL Server and IIS
- Carry out System Administrator training when necessary
- Produce installation documentation
- Implement known working Radiology work flows and advise customers on improvements to their existing workflow
- Provide expertise and technical knowledge about the application
- Support the customer through System Configuration, User Acceptance Testing, Analysing and Resolving queries and issues.
- Provide implementation and technical support to the Soliton IT Project Manager
- Attend meetings as necessary
- Provide feedback to the Product & Development team regarding project product development
- Providing on-site support at Go-lives

The correct candidate will have knowledge or experience in the following:

- Good understanding of Microsoft Windows and MS Office.
- Minimum of one year working within the Radiology industry.
- Understanding of Radiology Workflow
- Working knowledge of Radiology Information Systems (RIS); preferable Soliton IT RIS
- Experience of using Microsoft SQL
- Strong written and verbal communication skills.
- Degree or any other IT relevant qualifications.
- Flexibility to travel to client sites across the UK
- Willingness to stay away from home

The successful candidate will need some experience but can expect to receive training in the following fields:

- Microsoft Windows
- Microsoft Server
- Microsoft SQL Server
- HL7, DICOM, PACS

- Radiology Information Systems (RIS)
- Voice Recognition
- Mobile App Support (Apple and Android)
- Networking

Please note; Soliton IT is fully set up for a remote interview and is following Government guidelines on the Covid-19 outbreak.
